

WEBCHECK[®] FINGERPRINT BACKGROUND CHECKS

Title 1 Section 109.57.2 of the Ohio Revised Code requires background checks for certain occupations including individuals who work with children and/or the elderly; and insurance agents.

An innovative program developed by the Ohio Bureau of Criminal Identification and Investigation (BCI&I) is significantly lessening chances that child molesters and felons can harm schoolchildren and other vulnerable citizens of Ohio. WebCheck, an Internet-based program for civilian background checks, reduces the return rate of civilian background checks to as little as several hours.

**Fairhill Partners processes fingerprint background checks for volunteers and employees.
Results can be mailed directly to the requesting organization.**
